20 % ● / 55 % ■ / 25 % ◆

Avg. Annual Snowfall 188 inches

Why Choose this trip?

Panorama has the terrain to satisfy both intermediate and advanced skiers. We are staying right on the hill at the base of the Mile One Lift. If the groomers aren't enough for you head out to the Taton Bowl, it offers some of the most challenging in-bounds skiing and riding in the Rockies region.

The Panorama trip offers the chance for two other great adventures (at additional cost). Hop on the bus for a day skiing Kicking Horse. Kicking Horse kicked my ass stickers are everywhere and they are not kidding, this place is really tough. This is the year to try Heliskiing. RK Heliski is a short walk from the hill and offers one day adventures.

The Beckie Scott Nordic Centre offers over 28 kms of cross country trails groomed for skate and classic skiing, ranging in difficulty from easy to advanced.
